

Khatereh Khorsandi is faculty member and head of Department of Photodynamic, Medical Laser Research Center, YARA Institute, ACECR, Tehran University of medical sciences (TUMS) branch, Tehran, IRAN. She has Ph.D. in biochemistry. Her research interests include Photodynamic Therapy, Photobiomodulation, Photodynamic inactivation, cancer biology, stem cell and regeneration also Nanobiotechnology.

- Published 45+ peer-reviewed documents (>249 times citations, H-index:9)
- International & National Conferences Presentation: 31

Honors & Awards

- **FAOBMB Young Scientist Fellowship Award** from 14th FAOBMB congress, 2015, Hyderabad, India.
- **IUBMB Young Scientist Award** from 16th IUBMB conference, 2016, Vancouver, Canada.
- **FAOBMB Young Scientist Travel Fellowship Award** from 25th FAOBMB conference, 2016, manila, Philippines.
- **IUBMB Young Scientist program Award** from 24th IUBMB Congress and 15th FAOBMB Congress, 2018, Seoul, Korea.
- **ESP Fellowships award for the World Congress on Light and Life (2019)** from European Society of Photobiology, 2019, Barcelona, Spain.
- **IUPAB UPAB-SBBq-SBBf Young Scientist Program fellowship Award** from 20th International Congress of the International Union for Pure and Applied Biophysics (IUPAB), a joint event with the 45th Annual Meeting of Brazilian Biophysical Society (SBBf) and the 49th Annual Meeting of Brazilian Biochemistry and Molecular Biology Society (SBBq), Foz do Iguaçu, Brazil, October 26th to 30th, 2020. Congress postponed to 2021.
